

NARRTC provides a platform for you to:

Become a member of a disability research community. NARRTC provides a unique opportunity to network and share resources among the top disability & rehabilitation researchers and practitioners in the country. Members are also encouraged to become involved in organization management.

Combine your voice with others. As an organization of peer projects, we work to promote our common missions and goals.

Keep updated on important issues.

NARRTC members receive regular updates about legislative, agency, and other current information about disability and rehabilitation research issues. Members also receive quarterly electronic newsletters and updates via email.

Attend the annual conference.

Held annually in the Washington, DC area, the NARRTC annual conference offers members the opportunity

to hear the latest news from NIDRR, learn about legislative updates, and hear about the latest innovations in disability & rehabilitation research, training, technical assistance and knowledge translation. Members also have the opportunity to network, share mutually beneficial information, and promote projects and centers.

Inform legislators.

NARRTC supports efforts to educate legislators about needed disability legislation and funding and members' accomplishments. We work to keep disability issues a priority for legislators.

Who We Are...

NARRTC is the only independent association exclusively for National Institute of Disability Rehabilitation and Research (NIDRR) grantees with common interests. This includes rehabilitation and training centers, knowledge translation projects, rehabilitation engineering research centers, disability and rehabilitation research projects, ADA regional centers, field initiated projects, small business innovation projects, and model systems.

Our Mission

NARRTC members are committed to improve the quality of life, independence of life choices, and inclusion of individuals with disabilities and their families through relevant research, training, technical assistance, knowledge translation, development and demonstration activities.

NARRTC
NATIONAL ASSOCIATION OF REHABILITATION
RESEARCH AND TRAINING CENTERS

NARRTC promotes inter-disciplinary perspectives in research, dissemination, training and employment for the benefit of all people with disabilities. NARRTC believes that research contributes to the advancement of state-of-art rehabilitation services through the application of the scientific method and generation of new knowledge, methods, technology, and policies.

Critical thinking challenges the basic assumptions about disability, and enhances the possibilities of full inclusion and participation in society for all persons with disabilities.
